

Joanne

“If I had not done the FIT [the bowel screening] test in January I would not have realised I had cancer...”

Craig

“I would not wish this on any family, and hope these stories can help someone to have the courage to get tested.”

Sara

After 10 years of trying to get a diagnosis, Sara was diagnosed with stage 4 bowel cancer in Dec 2022 after a self funded surgery.

Mike

There is a history of bowel cancer in my family; my mother having died at 48 and my brother having died at 36 from it.

Andy

I had noticed blood in my stool and went to doctor who referred me for colonoscopy, I had cancer, it had been there a while...

Thomas

[The Doctor] said I was so anemic she was surprised I was conscious and able to function... So began Bowel Cancer Act I...

Malcolm

My cancer has taken away from me many things, but I have gained tremendous support from my family and friends.

Peter

Even though I was well aware of our family history, I went through life trying to avoid thinking about it.

Lisa

If having cancer has taught me anything, it's forging through. I've done things that I never thought I'd do.

Steve

Back from the brink. Get checked at the first miniscule inkling that something may be amiss.
